EXPERIENCE

-
- Web Developer, Incoming Web Production Editor** Feb. 2026 – Present
USC Annenberg Media *Los Angeles, CA*
- Constructed a custom triple-column React layout block on Arc XP's Fusion platform, integrating structured content feeds and theme-aware styling to support editorial publishing workflows
 - Selected to lead web production for the Fall 2026 cycle after collaborating with designers and project managers across 2+ feature cycles to translate editorial requirements into production-ready components
- Web Developer** Jan. 2026 – Present
Wise Wish Marine Engineering Training Centre *Remote*
- Built and shipped wisewishmetc.com, a bilingual English/Burmese site for a Myanmar maritime training school, in React, TypeScript, Vite, and Tailwind CSS with mobile-first layouts
 - Implemented a Google Sheets-backed intake calendar rendering rolling 12-month course availability with no backend, letting non-technical staff update schedules without a deploy
 - Owned the deploy path end to end: Cloudflare Workers static assets with automated builds on merge, custom domain, and DNS; scoped features directly with the client's admin
- IT Support (Part-Time)** Dec. 2024 – Present
Dr. Khin Sandra Oo, Inc. & Associates *Yorba Linda, CA*
- Design and develop the clinic's informational website using Next.js, TypeScript, and Tailwind CSS, with interactive service and FAQ components and mobile-optimized layouts for patients browsing on phones
 - Maintain front desk workstations, staff accounts, and routine updates and backups across clinic devices
- Undergraduate Research Associate** Jan. 2023 – Jun. 2025
BEDLab @ University of California, Riverside *Riverside, CA*
- Conducted independent honors capstone research on generative AI adoption in education under Professor Ye Li, presenting progress to faculty and graduate students in weekly lab meetings
 - Presented findings at the UCR Undergraduate Research Symposium; received the BCOE Best Research Presentation Award

PROJECTS

-
- Adversarial Game Agent** | *C++* Jan. 2026 – May 2026
- Built a search agent for a 12x12 strategic board game with 8 piece types, implementing principal variation search with iterative deepening, Zobrist-hashed transposition tables, killer move and history heuristics, and late move reduction
 - Placed 19th of 201 in a course-wide agent tournament (top 10%) under a fixed per-move time budget
- Reddit Music Search Engine** | *Python, PRAW, PyLucene* Apr. 2025 – Jun. 2025
- Built a PRAW collection pipeline crawling music subreddits into structured JSONL datasets for downstream indexing
 - Implemented a PyLucene indexing and retrieval pipeline over titles, bodies, and comments, reranking results by combining Lucene relevance with post score and a time-decay recency factor
- Big Data Crime Analysis** | *PySpark, GeoPandas, Shapely, MySQL* Apr. 2024 – Jun. 2024
- Developed a scalable geospatial workflow assigning ZIP codes to 22M+ crime records in 1M-row batches using GeoPandas, Shapely, and U.S. Census ZCTA shapefiles across five city datasets
 - Analyzed crime frequency by ZIP code joined against demographic data to surface offense-type and neighborhood-level trends

LEADERSHIP

-
- Vice President, Engineers Without Borders** Sep. 2023 – Jun. 2025
University of California, Riverside *Riverside, CA*
- Led 20+ engineers on a multi-quarter fertilizer deposition robot from concept through prototype; co-hosted BearHack, a two-day hackathon for 100+ participants

EDUCATION

-
- University of Southern California** Los Angeles, CA
M.S. Computer Science Aug. 2025 – May 2027
- University of California, Riverside** Riverside, CA
B.S. Computer Science, Honors, Cum Laude (3.89 GPA) Sep. 2021 – Jun. 2025

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C++, C, SQL, HTML, CSS
Frameworks: React, Next.js, Vite, Tailwind CSS, Express.js, Node.js, PySpark
Tools: Git, GitHub Actions, Docker, MySQL, ESLint, Prettier, Cloudflare, Vercel
